

Training Programme on Biopharmaceutical Product Development

Date: 3-7 February 2020 | Venue: Institute of Chemical Technology, Mumbai

Sponsored under National Biopharma Mission

Overview: Specialized training programme aims to establish a Skill Development Platform for the development of Human Capital for Biopharmaceutical Startups and Industries. It shall cover various aspects of Biopharmaceutical Product Development with special emphasis on developing Monoclonal Antibodies

Programme Coverage

Module 1

Downstream
Process
Purification and
Formulation

Module 2

Cell Line
Development
and Upstream
Bioprocessing

Module 3

Biophysical
Characterization
of Biologics and
Biosimilars

Module 4

Analysing Critical
Quality Attributes using
Mass Spectroscopy
and Capillary
Electrophoresis

HIGHLIGHTS

- ▶ Workshop covering experiments and data interpretation for Cloneto Clinic Pathway
- ▶ Renowned national and international industry experts as trainers and speakers
- ▶ Excellent opportunity to interact with innovators to regulators
- ▶ Sponsored 5 day hands-on-training workshop including accommodation for out-station participants
- ▶ Applicants shall be able to select either one of the four modules for hands-on training

LAST DATE FOR APPLICATION: 14th January, 2020

LEADERSHIP CONCLAVE 2020

February 8, 2020
Institute of Chemical Technology, Mumbai

THEME – AFFORDABLE BIOLOGICS/BIOSIMILAR

Institute of Chemical Technology is proud to organise the 2nd Leadership Conclave on 8th February 2020.

The 2nd Leadership Conclave will host delegates and distinguished leaders from Indian and Global Biopharmaceutical Industry, Government, Financial sector, Regulatory agencies, entrepreneurs and various stakeholders to discuss, debate and provide valuable information towards this year's theme on "Affordable Biologics/Biosimilar"

ABOUT THE CONCLAVE

Representative talks and panels on sub themes:

- 1) Global policy initiative for affordable bio therapeutics
- 2) Indian policy perspective/make in India/Ayushman Bharat program for affordable bio therapeutics
- 3) Advances in bio manufacturing/services/ innovations for affordable bio therapeutics
- 4) Regulatory and clinical innovations towards affordable bio therapeutics

DELIVERABLES

- To provide a platform for the best known experts from the industry to deliberate on important issue pertaining to the sector
- Talks and panel discussion format provides extremely valuable information to draft a policy or action point
- To generate and submit a white paper to national and international agencies

PARTICIPATING LEADERS

- **Dr. Umesh Shaligram**, Head, R&D, Serum
- **Dr. Dhananjay Patankar**, Vice President, Syngene
- **Dr. Mahesh Balaghat**, COO, Syngene
- **Dr. Shreehas Tambe**, COO, Biocon
- **Dr. Amita Goel**, CEO, Celltheon USA
- **Dr. Naren Chirmule**, CEO, SymphonyTech Biologics
- **Dr Ranjan Chakrabarti**, Vice President Scientific Outreach, Biologics, USP-India
- **Dr. Anurag Rathore**, Professor, IIT Delhi
- **Mr. Vikas Dandekar**, Editor, ET Prime and many more...

REGISTRATION FEES

For Industry
₹ 15,000/-

For Academia
₹ 10,000/-

For Registration, please send mail to **Ashwini Patil** at
biosimilarworkshop2020@nano-medicine.co.in
